Objective

Looking to shift careers from customer service into a junior developer role. I don't have formal experience, but I've been building personal projects to learn programming.

Experience

Personal Projects

Spotify Clone App

Using React, CSS, and JavaScript building a clone of Spotify. Accessed Spotify's API to pull the user's data to use it for the application.

Music Store

Plan and build a dummy ecommerce website using CSS and HTML. Revising and adding to the design as needed.

Education

Rutgers University

Bachelor of Arts - graduated 2019

English Literature and minor in Psychology

New Brunswick, NJ

Franklin High School

High School Diploma - graduated 2015

Somerset, NJ
