Projects

Ecommerce Site
Built a full ecommerce website with a landing page, shopping cart, and web store. Includes a check out feature and keeps track of items in the user's shopping cart in local storage. Hosted with a live domain for easy access and use. Tools used were CSS, HTML, Bootstrap, and JavaScript. URL is https://skybluerecords.netlify.app/

Pong
Built a game of Pong using Python and Turtle. Has a two-player system, keeps track of score, and resets the ball whenever one player scores. Source code is on GitHub:
https://github.com/jamieblue4/pong

Music Player
Built a desktop application that plays local music files with Python. The user can upload their own local files and play it in the application. The GitHub link is below:
https://github.com/jamieblue4/python-music-player

Technologies and Other Skills

HTML, CSS, JavaScript, TypeScript, React JS, Python, Python turtle, Git, Github, Material UI, Bootstrap

---

Education
